

BEST INNOVATION IN ENGINEERING

CRITERIA ELIGIBILITY - JUDGING PERIOD: 1 APRIL 2023 - 31 MARCH 2024

ENTRIES CLOSE FRIDAY 31 MAY 2024

All entries must be submitted online at <http://entry.acras.com.au>.
THIS DOCUMENT IS A GUIDE ONLY.

National Award - Single category (All markets are encouraged to enter)

This category was established in recognition of the achievements of Max Wilson, former Group General Manager Engineering at ARN. His dedication and commitment to innovation and excellence in engineering activities, and his achievements in cost savings for stations and networks, continue to provide benefits to the industry today. The category is judged by a specialist team of engineers and executives.

The judges will be looking for a single achievement or specific engineering project which is based on an innovative idea, demonstrates exceptional engineering skill, has broad application to the industry and/or which will achieve cost efficiencies. Supporting documentation (including photographs) is encouraged.

Requirements

Written submission (3 page limit)

- Include any additional supporting information

Submissions must include;

- identify nature of innovation
- Specific skills demonstrated
- State how this achievement/project will be of broad benefit to the industry
- Identify nature/degree of cost efficiency

When completing the online form, use the names of individuals or teams exactly as they would appear on a finalist certificate or winner's trophy - PRINT CLEARLY to ensure there are no mistakes. Please provide phonetic pronunciations of names if possible. Commercial Radio & Audio will not be responsible for incorrect spelling of names.
